Education

- **KARAKORAM INTERNATIONAL UNIVERSITY** — Gilgit, Pakistan
  BS SOFTWARE ENGINEERING — *2025–Present | Expected 2029*
- **ARMY PUBLIC SCHOOL AND COLLEGE SYSTEM (NMC), BWP** — Pakistan
  INTERMEDIATE (ICS) — *2024*
- **ARMY PUBLIC SCHOOL AND COLLEGE SYSTEM, JUTIAL** — Gilgit, Pakistan
  MATRICULATION — *2022*

Experience

- **Binary Hub** — Gilgit, Pakistan
  AI & Machine Learning Trainee — *2026 | Three months*
  - Practical training and project work in AI and machine learning.

Technical Skills

- Python, NumPy, Pandas, Scikit-learn, TensorFlow, HTML/CSS, Git & GitHub
- Areas: Artificial Intelligence, Machine Learning, Data Analysis, Regression

Projects

- **Cancer Data1:** Analyzed a cancer-related dataset using Python and Pandas, including data cleaning and preprocessing.
  https://github.com/farhankarimbsse-a11y/Cancer-Data1
- **Polynomial Regression on Manufacturing Dataset:** Built a polynomial regression model with Scikit-learn to capture non-linear relationships in manufacturing data.
  https://github.com/farhankarimbsse-a11y/Polynomial-Regression-on-Manufacturing-Dataset-
- **Multiple Linear Regression:** Implemented a multiple linear regression model to predict a target value from several input features.
  https://github.com/farhankarimbsse-a11y/Multiple-Linear-Regression
- **Startup Profit Prediction:** Developed a multiple linear regression model to predict startup profit from business-related variables.
  https://github.com/farhankarimbsse-a11y/Multiple-Linear-Regression-on-Startup-Profit-Prediction
- **Income Prediction:** Built a multiple linear regression model to predict income based on multiple variables.
  https://github.com/farhankarimbsse-a11y/Multiple-Linear-Regression-for-Income-Prediction
- **Climate Records of Gilgit – SLR:** Applied simple linear regression to Gilgit climate records to analyze relationships and trends.
  https://github.com/farhankarimbsse-a11y/Climate-records-of-Gilgit-SLR
- **Position Salary Data – SLR:** Explored the relationship between job position and salary using simple linear regression.
  https://github.com/farhankarimbsse-a11y/Position-Salary-Data-SLR
- **AI Social Media Student Dataset – SLR:** Applied simple linear regression to a student dataset to analyze relationships between variables.
  https://github.com/farhankarimbsse-a11y/AI-Social-media-Student-Dataset-SLR
- **SLR Project:** Completed an end-to-end simple linear regression project covering data preparation, model training, and evaluation.
  https://github.com/farhankarimbsse-a11y/SLR-PROJECT

Certifications & Professional Development

- HP LIFE — AI for Business Professionals (1 August 2026)
- Cisco Networking Academy — Introduction to Modern AI (3 August 2026)
- Ongoing independent learning and practical project work in AI/ML and Python.
